Increasing Your Impact & Influence With TRUST

In today's world, trust is in a freefall. Regardless of position, one of the biggest ways to stand out is to be a person or company that is trusted. Increasing trustworthiness **will increase your level of success**. Trust equals loyalty, buy-in, promotion, and much more.

Think about this: you have probably given every person you encounter in life a "trust score," and they have likewise evaluated you. We want to be the people that others seek to do business with because they can trust us. It's time to stop losing trust points and develop habits that inspire rock-solid trust in our work relationships. This training contains time-tested, practical action steps that you can start implementing today.

One of the single largest factors in determining success or failure within corporate relationships is trust. This key component is valuable in any interaction, including your customers, team members, and even your suppliers. This session is for everyone!

In this insightful, practical trust workshop, we will cover:

1. Common signs of low trust
2. Know your "Trust Leaks," or ways you are losing trust points.
3. Secrets to obtaining trust quickly
4. Applying the Trust Transformation to your life to consistently build trust in business.

*We all decide what to say and how to act, but OTHERS decide if we are TRUSTWORTHY.
A trusting workplace will attract, retain and motivate the best.*
